

# NITIN BISHT

Full Stack Developer | MERN Stack

Phone: +91-9105-418-374 | Email: nitinsbisht2027@gmail.com | Location: Haldwani, Uttarakhand

LinkedIn: [www.linkedin.com/in/nitin-bisht-b0522322a](https://www.linkedin.com/in/nitin-bisht-b0522322a) | GitHub: <https://github.com/NitinSBisht>

## About Me

Full Stack Developer with 2 years of professional experience in building scalable web applications using the MERN stack. Skilled in designing responsive UIs, developing robust backend APIs, and integrating third-party services. Adept at working in agile teams, delivering SaaS platforms, and ensuring secure, high-performance applications.

## Technical Skills

Frontend: React.js, Redux Toolkit, Redux Persist, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets

Databases: MongoDB, MySQL, Sequelize ORM, Mongoose

DevOps & Tools: AWS (EC2, S3), Git, GitHub, Postman, JIRA, Agile/Scrum

Other: Auth0, JWT authentication, CSV data processing, File upload handling

## Work Experience

Full Stack Developer – smartData Enterprises (Jan 2023 – Present)

- Led end-to-end development of SaaS products using React.js, Node.js, Express.js, MongoDB, MySQL.
- Designed reusable React components, optimized state management using Redux Toolkit & Redux Persist.
- Built secure RESTful APIs with JWT authentication & role-based access control.
- Integrated CSV import/export, file uploads, and third-party APIs.
- Deployed applications on AWS (EC2, S3) with CI/CD pipelines.

## Projects

### PadelPro – Sports Booking & Management Platform

A multi-role SaaS platform designed for Padel clubs, enabling super admin, club admins, and players to efficiently manage bookings, memberships, and payments.

- Super Admin panel for club registration, CRUD operations, membership plans, holidays, day-offs, and dynamic pricing management.
- Club Admin dashboard for managing player records, court availability, and customer memberships.
- Player mobile application for viewing and booking available slots, modifying bookings, and handling split or single payments.
- Dynamic court pricing based on time slots and availability.

**Tech Stack:** React.js, Node.js, Express.js, MySQL, Sequelize ORM, AWS (EC2, S3), JWT Authentication

**Role:** Full Stack Developer – Responsible for end-to-end architecture, RESTful API design, payment workflow, and deployment.

### SafeSphere – <https://safesphere.isafetylog.com/>

Full-stack MERN SaaS platform for incident reporting, observation logging, MOC (Management of Change), and meeting records.

- Features: role-based access control, CSV-based user onboarding, secure report storage, and organization-level customization.

**Tech stack:** React.js, Redux Toolkit, Redux Persist, Node.js, Express.js, MongoDB, MySQL.

### Hartzell Helios – <https://helios.signiaaerospace.com/>

A Signia Aerospace sub-project designed to centralize and manage critical records across its operations.

- Features: secure document management, data categorization, role-based access, and advanced search capabilities.

**Tech stack:** React.js, Node.js, Express.js, MongoDB, MySQL, AWS S3 for document storage.

## Education

Master of Computer Applications – Birla Institute Of Applied Sciences (2021–2023)

Bachelor of Science – Kumaon University (2018–2021)

## **Languages**

- English (Professional Proficiency)
- Hindi (Native)
